

Suraj Bhari

SOFTWARE ENGINEER · BACKEND & AUTOMATION

Bikaner → Dehradun, India surajbhari159@gmail.com github.com/SurajBhari streamsnip.com

PROFILE

Computer Science graduate who builds backend systems, media-processing pipelines and analytics tools, with a bias toward *automation* and toward shipping things people actually use. Most of my work lives around live streaming, YouTube and self-hosting, and I'm increasingly interested in pointing the same data-driven systems at business operations.

SELECTED PROJECTS

■ StreamSnip

FLASK · POSTGRESQL · PYTHON · FFMPEG · YT-DLP · AWS

A clipping platform for streamers: one chat command lets a streamer's viewers clip a live moment, no clipping software. Built the scalable backend and media-processing pipeline, plus clip discovery and recommendation.

18,000+ users · streamsnip.com

StreamStats

FLASK · POSTGRESQL · THREE.JS

Real-time YouTube live-chat analytics, ingesting and visualising chat activity from live streams as it happens.

Live · stats.streamsnip.com

Real-Estate Management System

FLASK · SQLITE · JAVASCRIPT · HTML/CSS

An internal platform for property sales: billing, incentives, reporting and transaction tracking, with 2FA login, built to simplify day-to-day business workflows.

TECHNICAL SKILLS

LANGUAGES

Python, JavaScript, C, C++,
SourcePawn

WEB & FRAMEWORKS

Flask, HTML, Bootstrap, Chart.js,
Three.js

DATABASES

PostgreSQL, MySQL, SQLite

TOOLS

Git, Linux, FFMpeg, yt-dlp, AWS

EDUCATION

2026 (incoming)

MBA

Chandigarh University

2021-2025

B.Tech, Computer Science &
Engineering

Graphic Era Hill University, Dehradun ·
CGPA 7.2

2021

Class XII

R.S.V., Bikaner · ~70%

2019

Class X

Lyall Public School, Bikaner · ~75%

STRENGTHS

Problem solving

Backend dev

Analytical thinking

Databases

Quick learner

Collaboration
